

Meaningful Places | Distinctive Spaces | Conscious Details

Sequel Architecture knows remodeling. We are a full-service architecture firm with expertise in renovation, remodeling, historic rehabilitation, additions, and outdoor spaces. We approach each client, home, budget, and project individually, working with you to design unique and creative solutions.

Homebuyer Remodeling Consultation - \$400

Can we fit a powder room on the first floor? How hard would it be to remove this wall? How big a project would it be to remodel the kitchen? What are some options for reconfiguring the master bathroom?

Sequel Architecture's **Homebuyer Remodeling Consultation** can help answer these (and many other) questions with actionable information on scope, feasibility, potential cost, and anticipated hurdles to overcome.

For consultations that proceed with us into a full design project after closing, the cost of this service will be credited to the Sequel Architecture design fee.

Other pre-closing real estate services include: historic eligibility evaluation, strategy consultation on inspection reports, and hourly consultation for unique homes/project feasibility.
